## Profile

---

I am a full-stack result-driven Software Developer with 6 years of experience. Loves clean and elegant code. Has solely built and assisted from start to finish many web applications ranging from simple blogs to complex eCommerce. I have built a robust school management web application used by 200+ schools from scratch to MVP. Equipped with an excellent understanding of Web 3 and blockchain technology. Tech savvy and a good team player.

## Work Experience

---

### Web Developer (Technical Co-Founder)

June 2024 – Present

Africa Blockchain Consortium & Digital Economy | Accra, Ghana

- Employed Laravel's MVC architecture, scalability, and security features in designing authentication, logic, user experience, etc., for the start-up's main application.
- Developed better ways of working with databases by using Laravel's Eloquent ORM, Query Builder etc., to work with data efficiently.
- Worked with other engineers and stakeholders to plan, organize, and prioritize development tasks and projects to ensure timely delivery and manage resources effectively.

### Web Developer & IT Officer

March 2020 – April 2024

MSP | Sagamu, Ogun, Nigeria

- Built one of the parish's web application to facilitate appointment booking, and collect members' details, donations, tithes, etc.
- Designed the production department IT infrastructure which increased productivity by 70 percent
- Consulted on IT matters such as purchasing computer and computer equipment, infrastructure security, data storage and communication.

### Web Developer (Freelance)

Jan 2019 – Present

CNScomputers, Snaphunt, Upwork | Remote

- Built and deployed an HTTP server using Node.js on IBM Cloud.
- Developed an eCommerce application that accepts both fiat and crypto payments.
- Built a blog that generated immense traffic.
- Improved and managed a WordPress website used for the sale of farm produce and machinery.
- Assisted in the design and building of a business networking website.
- Built a music and event web application.
- Developed a fundraising web application that helped hit company's target.

## IT Support (Intern)

Jan 2018 – Jun 2018

CATWITH Beejay Digital Solutions | Lagos, Nigeria

- Reduced maintenance cost by troubleshooting and repairing company and client computer systems
- Improved efficiency and standard of operation by 40% by strategically upgrading hardware and software systems
- Instructed students on graphic design, web design and use of the internet.

## Education

---
